CHANGE THROUGH BALANCE

Ladder Barrel

Ladder Barrel brings leading edge functionality to barrel work. The orthopedic padded cushion is a curved design that adds comfort and support. The barrel is connected to the ladder with linear slides for smooth movement. Its expanded width and standing platform brings accessibility to barrel work.

Height: 97 cm

Width: 90cm

Length: 120 cm

Trapeze: 63 cm

1.950 €

Combo Chair

Combo Chair has an innovative pedal design that extends mobility, offers smooth transitions and fine-tuning adjustability of spring tension and handle height..

Height: 62 cm

Width: 55 cm

Length: 90 cm

1.950 €

ELEGANT POWER

Pro Tower Unit

The right and left parts of our Pro Tower Unit equipment are raised and lowered thanks to the sliding metric system. The handle allows you to do a lot of exercise movements thanks to the push toolbar. Other parts are used as a gymnastics ladder.
